

## Midge Off

Equine midge repellent lotion.

---

A repellent, designed specifically for midges.

A rich penetrating lotion for application to areas particularly sensitive to irritation from midges. Contains concentrated garlic oil to help soothe the skin and repel biting insects and midges. Midge Off is a fully approved fly repellent, HSE No 8609. For optimum results NAF recommend using Midge Off as an external application in combination with NAF D-Itch feed supplement to support from within.
